

LEDA LOGRT

(Local Option Gross Receipts Tax for Uses Permitted by the Local Economic Development Act)

Executive Summary

Inside the enabling statute of the voter-approved constitutional amendment allowing local governments to “provide public support for economic development projects” is a provision to generate revenue for that public support (Section 5-10-4b[3] NMSA 1978).

With the approval of its voters, a county can enact an increment of one-eighth of one percent (or **12.5 cents per \$100**), provided the revenue generated by the increment is “dedicated to furthering or implementing economic development plans and projects,” pursuant to LEDA. With the LEDA LOGRT revenue, the county can enter into contracts with economic development organizations, for example, “for promotion and administration ... related to the implementation of any such economic development plan adopted by the governing body.”

Estimated Annual LEDA LOGRT Revenue -Sandoval County-		
The table seen here demonstrates the capacity-building power of LEDA LOGRT. Using RP-500 reports of the N.M. Taxation and Revenue Department (NMTRD), 12 consecutive months of Sandoval County’s taxable receipts were collected, summed, then multiplied by the LEDA LOGRT increment. NMTRD’s David Monteith said this method is consistent with the department’s methods to estimate increment revenue.	Sandoval County Taxable Receipts (November 2023-October 2024 Business Activity)
