

LEDA LOGRT

Funny Name but Serious Impact
on Jobs & Quality of Life

Economic Development, Defined

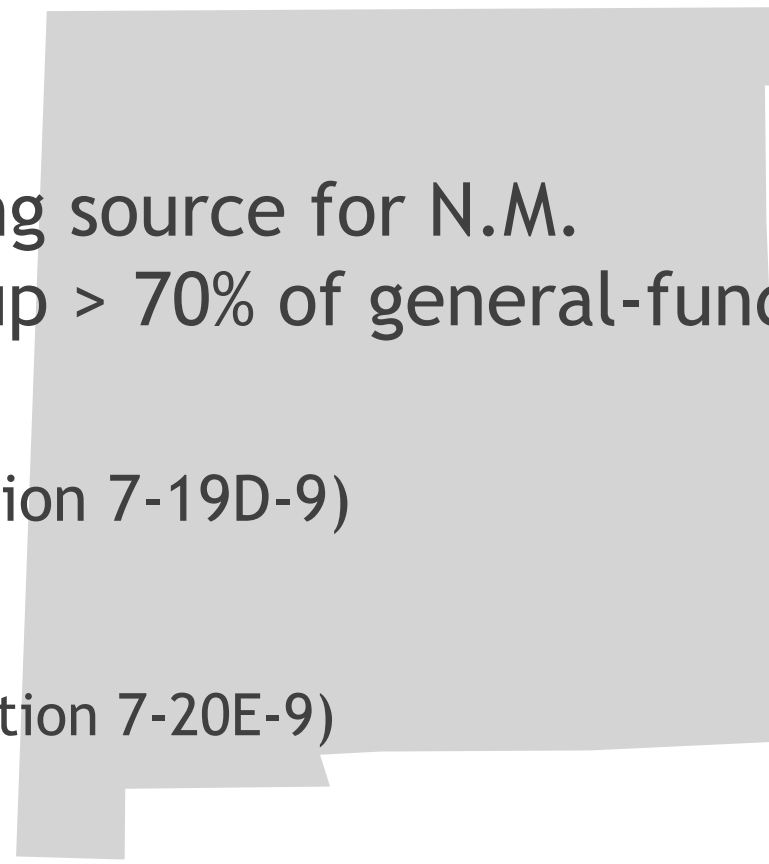

- ▶ International Economic Development Council (IEDC)
 - ▶ Economic development is programs, policies and activities that seek to improve the economic well-being and quality of life for a community by creating and retaining jobs and providing a stable tax base.
- ▶ New Mexico
 - ▶ Supporting economic-base businesses -- those that export goods and services out of New Mexico, causing the import of new money into the state.
 - ▶ Direct (manufacturer, e.g.)
 - ▶ Indirect (local vendors of the manufacturer)
 - ▶ Induced (local retail and services doing business with workers)

LEDA: Anti-donation Exception

- ▶ 1994: N.M. voters passed constitutional amendment to “allow public support of economic development.”
- ▶ LEDA
 - ▶ Enables state and local governments to offer money, land, buildings and infrastructure to qualifying entities for eligible economic-development projects

GRT: Authority to Impose

- ▶ State GRT: 4.875%
- ▶ Municipal GRT: Primary funding source for N.M. municipalities. Often makes up > 70% of general-fund revenues.
 - ▶ 2.5 percent may be imposed (Section 7-19D-9)
- ▶ County GRT
 - ▶ 1.25 percent may be imposed (Section 7-20E-9)

2019 HB 479: Thank you, Rep. Harper

- ▶ Amended Section 5-10-4 NMSA 1978 to double the municipal and county GRT increments for “furthering or implementing economic development plans and projects as defined in [LEDA]...”
 - ▶ Municipal, from one-eighth to one-fourth of a percent
 - ▶ County, from one-sixteenth to one-eighth of a percent
 - ▶ Subsection F requires the question to be approved by referendum
 - ▶ Municipalities and counties can spend no more than the greater of \$50,000 or 10 percent of the revenue collected on “promotion and administration of or professional services contracts related to the implementation of any such economic development plan adopted by the governing body.”

It Just Makes ‘Cents’

Municipalities that impose the quarter-cent GRT increment would collect **25 cents per \$100** of purchases.

Counties that impose the eighth-cent GRT increment would collect **12.5 cents per \$100** of purchases.

In a study of 100 municipalities and counties, if eligible jurisdictions were to dedicate the maximum or the remaining increment to economic development, capacity to create jobs and improve lives would increase by more than \$250 million annually.
